Claims Review

Ingredient Review

Packaging & Labeling

Will you be providing packaging components?

Yes

No, I would like Strata to source packaging

Will you be providing labels?

Yes

No, I would like Strata to assist with label design

No, I would like Strata to assist with label printing

Do you currently have label artwork?

Yes, it is finalized

Yes, but it needs revisions

No, artwork is needed

How would you like the Lot Number and Expiration Date applied to your product?

Printed directly on the label

Applied as a separate sticker

Printed directly on the bottle/ container

Unsure, please discuss with me

Please Note: A Lot Number is required on all finished products for production tracking and quality control purposes. Expiration Date placement is optional but strongly recommended depending on the product type and customer preference. Customer-supplied labels must leave adequate space for Lot Number and/or Expiration Date placement prior to label approval and production.

Additional Notes/ Requests:

Please Note: Production timelines begin once formulations, labels, packaging components, approvals, and required materials have been finalized and received by Strata Biotech Labs. Quotes, timelines, and production schedules are subject to change based on formulation complexity, ingredient availability, packaging component availability, testing requirements, and final project approval.

Please email your intake form to info@stratabiotech.com. Thank you for choosing Strata Biotech Labs. A member of our team will review your submission and contact you regarding project details, next steps, estimated timelines, and manufacturing feasibility.
